DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: #45 (as per paragraph 0014, line 1) and #4 (paragraph 0016, line 4). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: #53 (as in figure 12). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing

date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

3. The disclosure is objected to because of the following informalities: (1) if applicant is going to provide a list of reference numerals (eg, paragraph 0016), then all of the reference numerals should be listed (a number of them are not included, such as 3a-3c, 51-53, 24a, 14, 13, etc); (2) there is a #4 listed but this is not found in the figures.

Appropriate correction is required.

Claim Objections

4. Claims 3-18 are objected to because of the following informalities: (1) as the claims are now dependent on only one of the independent claims, the reference numerals of the dependent claims should not include the reference numerals of the other claim (for example, claim 3 is now dependent on claim 1 and it still lists the reference numeral 41 of claim 2); and (2) **new claims 11-18 are exact duplicates of claims 3-10** (it would seem that applicant intended to have one chain of claims depend from claim 1 and the other from claim 2). Appropriate correction is required.

Allowable Subject Matter

5. Claims 1-18 are allowed over the prior art of record.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Sanborn and Bastian are pertinent to cleaning device with strands secured to a handle end similar to that disclosed.

7. This application is in condition for allowance except for the following formal matters:

See the above remarks pertaining to the drawings, specification and claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
